

Greeneville AI Meetup

What AI Can Do for You

Thursday, November 12, 2026 · Big Spring Room, Greeneville/Greene County Public Library

Tonight

01 Introduction

02 Chatbots

03 Agents

04 One Year Ago

05 Slop Refinery Pipeline

06 Agentic Engineers

Questions are welcome at any time.

01

Introduction

Jordan Last

- Agentic engineer
- Software, built with AI agents, every day
- Greeneville, Tennessee

Millillion

Impossibly ambitious AI

Lasm

Lean for JavaScript and WebAssembly runtimes

ProofScript

A planned variant of TypeScript with dependent types and formal verification

Wasmetal

A bare metal physical implementation of WebAssembly. That's right, a WebAssembly CPU.

millillion.org

02

Chatbots

Prompt and response

Like Google: you ask, it answers.

The two main chatbots

ChatGPT

OpenAI · 2015 · Sam Altman

Claude

Anthropic · 2021 · Dario and Daniela Amodei

And many others: Gemini, Copilot, Meta AI, Grok, DeepSeek

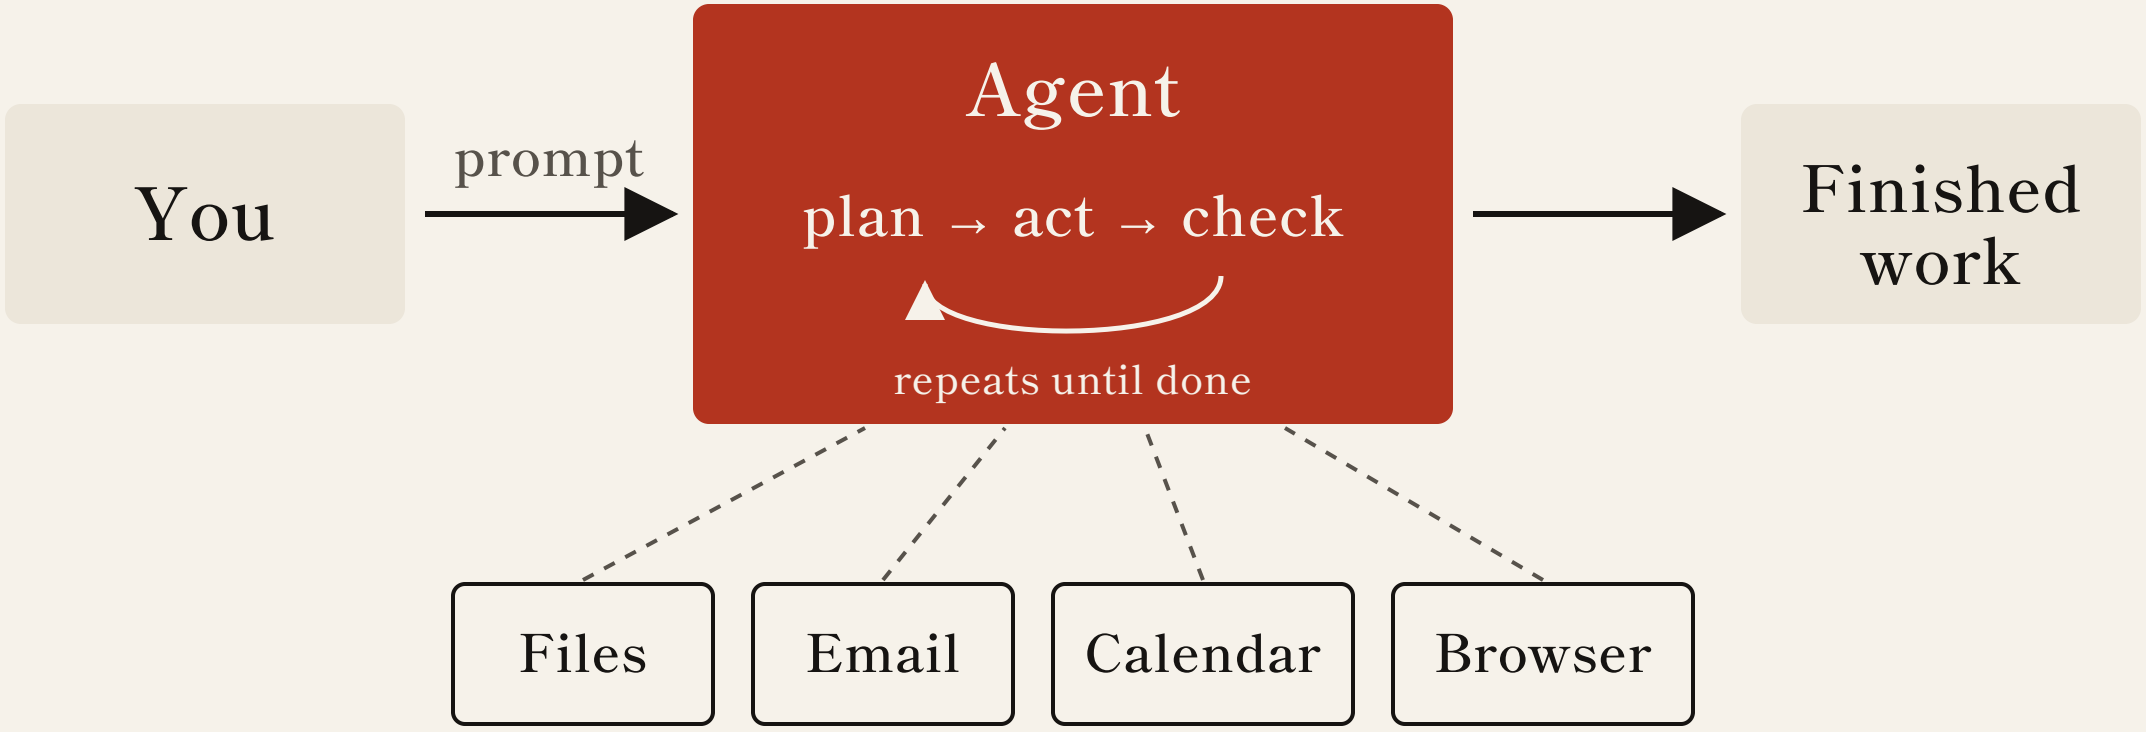

Demo

chatgpt.com · claude.ai

03

Agents

Prompt and work

Demo

Claude Code

Any knowledge work

Software	Drafting and CAD	Accounting	Contracts
Marketing	Research	Office work	Teaching

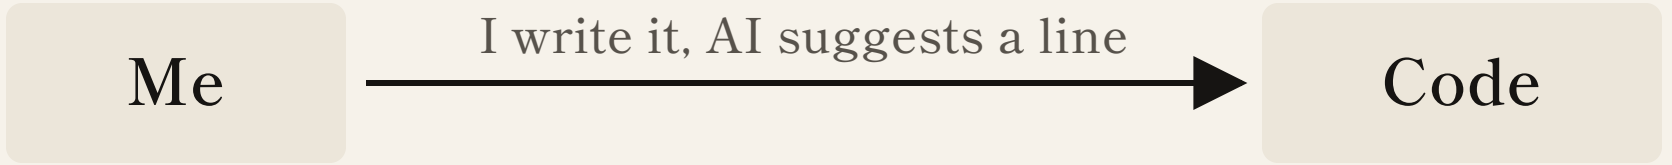

If the work happens on a computer, an agent can help do it.

04

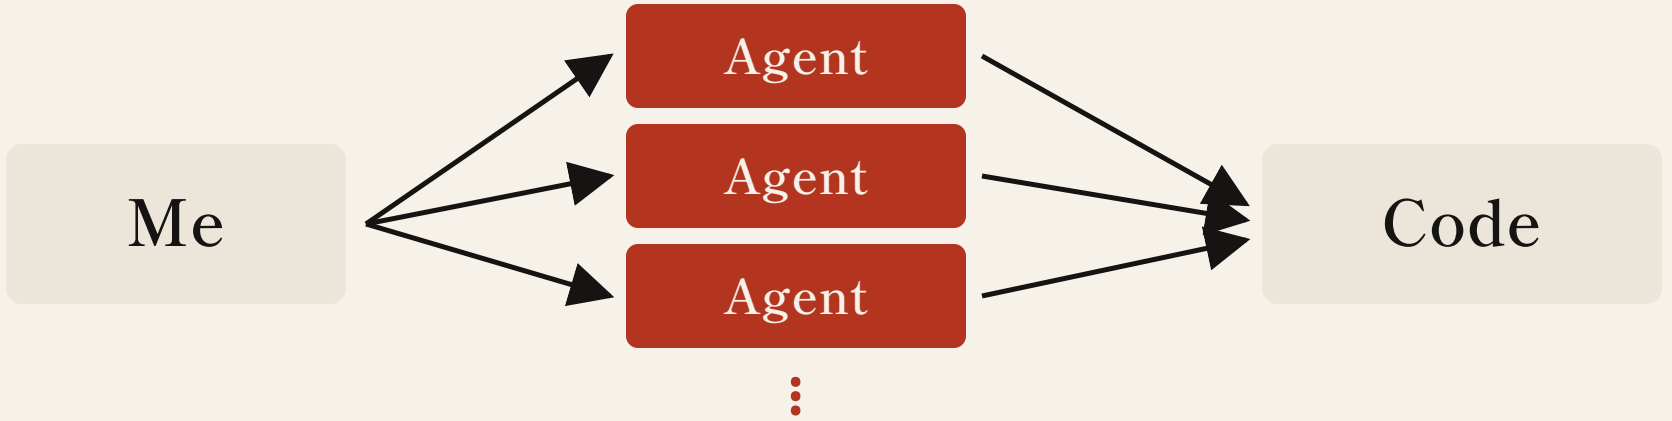

One Year Ago

Then and now

A year ago

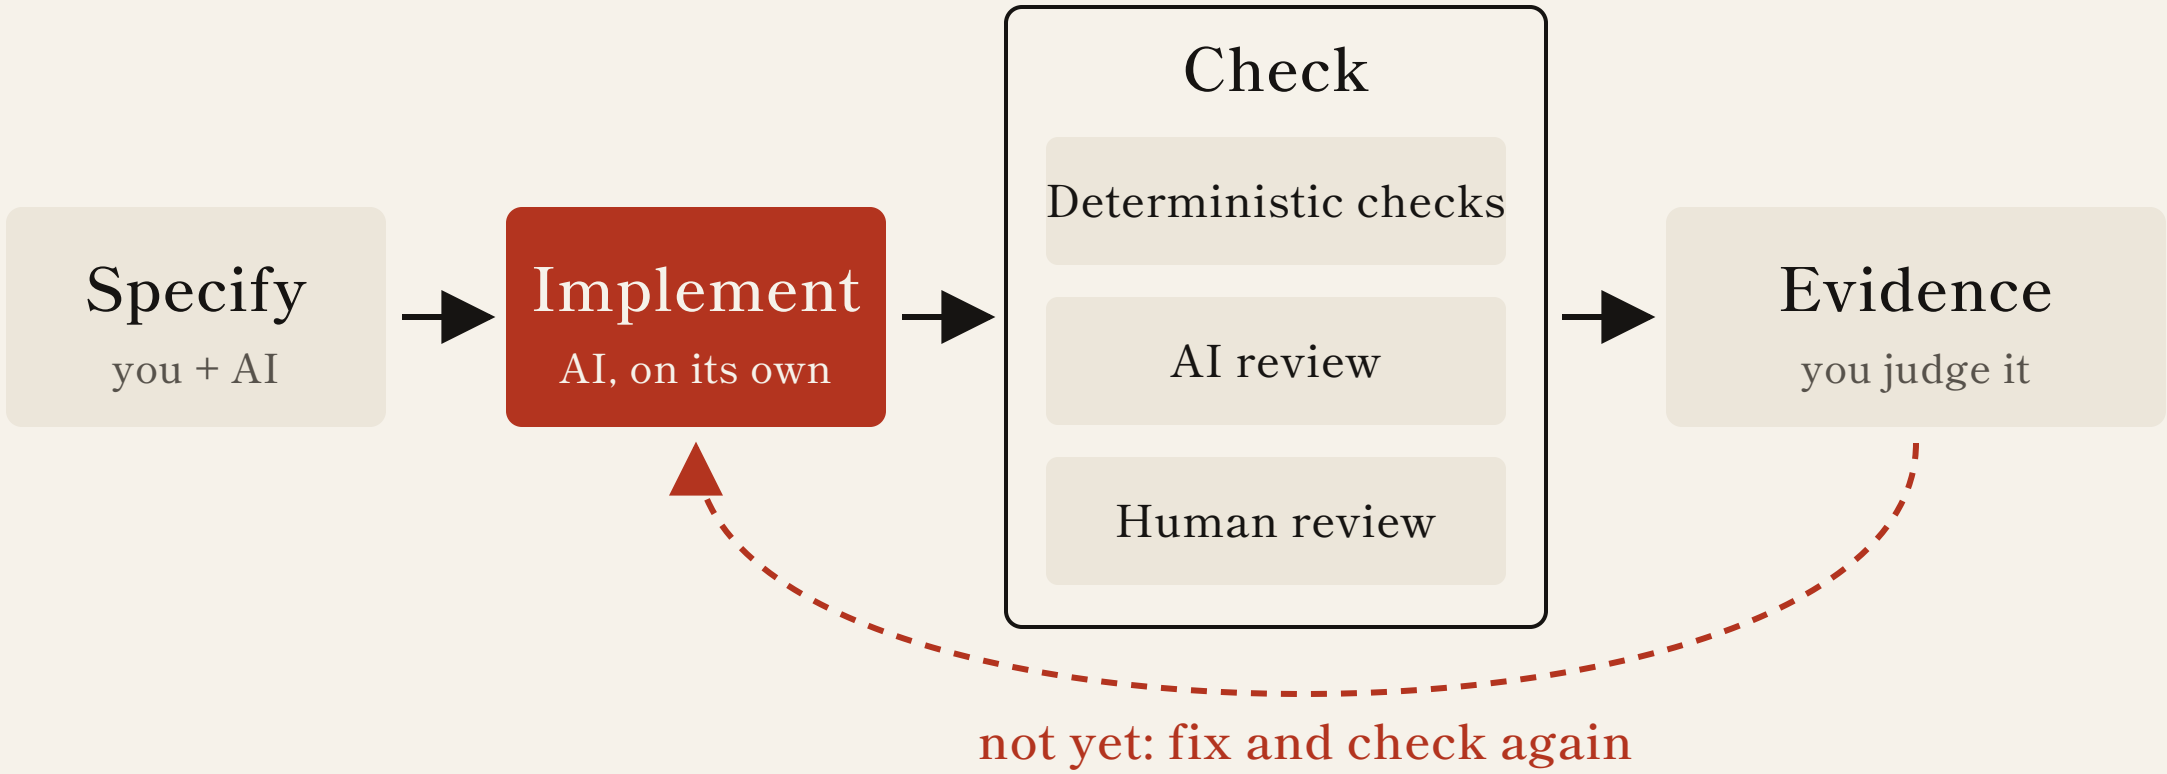

Today

05

Slop Refinery Pipeline

Specify, implement, check, judge

Verification

Deterministic

A program or script.
Same input, same result.

Stochastic

Judgment by AI or people.
Results can vary.

Fill each level in order. The agentic engineer guides the AI through it.

Lasm

Years of work for several people, done in weeks

06

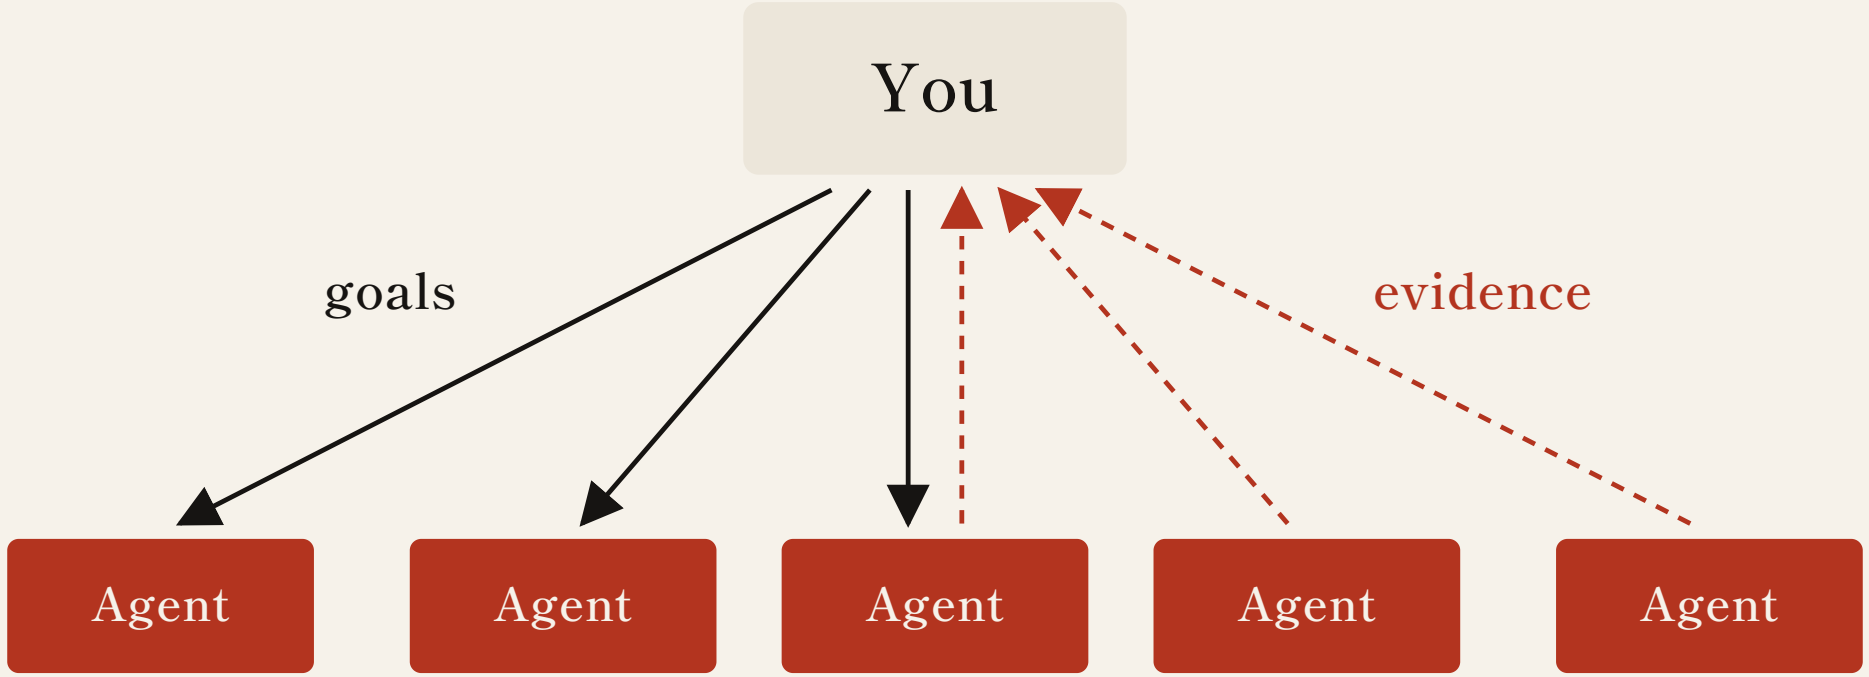

Agentic Engineers

Jagged intelligence

The valleys are where people still have the edge. For how long?

Judging the evidence

You decide what to build, and judge the evidence that it's right.

Questions

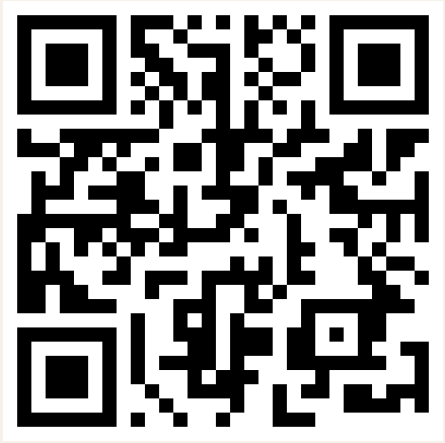

Ask anything, at any level.

Thank you
